12-2800-67 (10 page original, typewritten) (B)	<p>(U) Mission and Goal of the VC for 1967 and 1968</p> <p><u>Item #1: Political Training Material, undated, classified VC/ Secret, prepared by an U/I agency for low level cadre, Party members and Party sympathizers outlines the missions of the Party for 1967 and 1968.</u></p> <p><u>Document discloses that the immediate goal of Party members is to defeat the US in their war of aggression in SVN, smash their aggressive intention and compel them to withdraw their troops to their country and recognize a coalition government for SVN with NLF SVN as the backbone. Document further explains that neutralism mentioned in the NLF SVN Political Platform is in no way the third political line of the bourgeois class under the light of which a country makes agreements with the Imperialists while taking advantage of its relations with "socialist" countries and at the same time violently represses the Communist and progressist force inside the country. The neutralism contended by the Party is aimed at gathering all forces into a "broad and strong front" in view to defeat the US in their aggression policy and establish a coalition government in which NLF SVN is the "backbone". Speaking of coalition government mentioned in the NLF SVN Political Platform, document clarifies that it is coalition government "with conditions" which are the withdrawal of the US "pirates" and the establishment of a coalition government with NLF SVN as "backbone".</u></p> <p><u>After reviewing the situation which pointed out the repeated failures of the US and the resounding victories of the friendly VC/ forces during the past period, the document comes to the conclusion that the US has been driven to a very serious stalemate in the strategic, tactical, political and military fields and that it is high time for the VC/ to take advantage of already scored victories to achieve a "new leap forward" for the revolutionary movement in SVN. "It can be said", continues the document, "that the last months of 1967 and the year 1968 constitute the most important 'historical period' for us VC/". The balance of forces can be tipped in the VC favor/ if all the Party members, military personnel and civilian population make great efforts to "move forward" with a strong determination in spite of hardships and sacrifices.</u></p>	<p>12 Dec 67 XT548387 D/2/12 Inf, 2/25th US Inf Div Received CDEC: 27 Dec 67</p>
